Have you ever worked
in the UK?

You may be eligible to
claim a UK State
Pension

We can assess your
pension situation with
a few simple details

Why you Should Claim

a UK Pension

- When you retire your total income will still be crucial to your standard of living
- When you worked in the UK, you paid into the National Insurance scheme and earned your entitlement to a UK State Pension
- It is possible to increase the value of your pension by purchasing additional National Insurance Contributions

How this Works

Every pension application is individual but these steps outline the basic application process:

- We will assess your individual situation
- We will ask you to fill out a basic questionnaire for information about you
- We will complete all the forms needed for your application on your behalf
- Once we receive information from the Pension Services about the status of your pension, we will advise you of your next steps
- If it is applicable to your situation, we will explain the benefits of purchasing additional years of National Insurance Contributions
- Once we are satisfied that you will receive the maximum pension possible, your application will be complete

Services

Our services throughout the application process include:

- Experts available to answer any questions you may have about your UK State Pension
- Completion and filing of all application documents at the appropriate times
- Professional counseling regarding methods to maximize your pension
- Arrangement of purchasing National Insurance Contributions
- Any applications for revision or appeal processes.
